ParcCare

Why consider ParcCare in your decision to move to Parc Communities?

ParcCare offers compassionate homecare services designed to help enrich our residents' lives and maintain the highest possible quality of independent living — all within the comfort of home. We create an individual program of care based on specific needs and have the flexibility to modify the program as new needs arise. We understand the unique challenges of aging and pride ourselves on our ability to assist with the everyday individual desires of residents.

Safety and peace of mind

ParcCaregivers are licensed, insured and bonded. Our ParcCaregivers' screening process includes extensive background checks, drug testing, physical screening, reference checks and competency evaluations. In addition to being thoroughly trained, ParcCaregivers are consistently supervised by a licensed nurse. Rest assured that you are in the hands of highly-trained professionals whose main focus is the well-being of our residents.

We always consider your schedule

ParcCare services are available for needs ranging from only a few tasks up to 24 hours a day, seven days a week. All consideration is given to accommodating your individual schedule.

Our rates are designed to fit within your budget

ParcCare rates are structured to fit within your budget. Rates are based on the number of tasks performed, service hours per week and participation in shared services.

ParcCare Programs

We have designed simple yet comprehensive ParcCare Programs specifically tailored to your individual needs. We strive to offer the best selection of services to help you improve your health and maintain an active and independent lifestyle.

ParcCare services are divided into five functional programs:

1. "A La Carte" Program
2. Shared Services Program
3. Transportation Program
4. One-on-One Program
5. Live-In Program

"A LA CARTE" PROGRAM

Parc residents are able to pick and choose individual items from a wide variety of available services.

"A la carte" services include but are not limited to:

- Personal laundry
- Grocery shopping
- Medication supervision and assistance
- Monitoring of vital signs
- Light housekeeping and trash removal
- Safe mobility and transferring
- Assistance with exercise
- Meal preparation
- Monitoring of diet
- Showering or bathing
- Personal grooming including hair and nail care
- Dressing and wardrobe selection
- Pet care
- Friendly check-in
- Other customized tasks

SHARED SERVICES PROGRAM

Residents "share" a ParcCaregiver during scheduled visits. By utilizing shared services among a group of residents we are able to pass savings on to each resident. Provided services are shared among the residents with a schedule for each resident. Instead of being time-oriented we provide a task-oriented service, with multiple a la carte offerings throughout the day.

TRANSPORTATION PROGRAM

We can help! Wherever you would like to go, a ParcCaregiver can arrange personalized transportation and/or escort you to the destination of your choice by using the provided corporate vehicle or the client's vehicle. Scheduled chauffeured transportation is available with a simple phone call.

ONE-ON-ONE PROGRAM

A ParcCaregiver is provided for four to twenty-four hours at a time and will assist with any daily needs of the resident. The resident sets the hours based on individual needs and determines when they would like assistance from the ParcCaregiver.

LIVE-IN PROGRAM

A ParcCaregiver lives in your home and assists with daily needs, housekeeping, meal services and more during the day and sleeps at night while you sleep. The ParcCaregiver is available at night in case of emergency.
